CAREER OBJECTIVE

As a passionate Electrical engineering student, I am dedicated in applying my academic knowledge and practical skills to contribute for innovative projects in the field.

EDUCATION

KONGU ENGINEERING COLLEGE 2023-2027

Bachelors degree in Electrical Electronics Engineering with a CGPA of 8.04 till 6th semester.

GOVERNMENT GIRLS SCHOOL 2022 -2023

Completed HSC with 86 percentage.

PROJECTS

ECOSWEEP – AUTONOMOUS CLEANING ROBOT

Developed an autonomous cleaning robot with obstacle detection and automatic navigation. Reduced manual cleaning effort through sensor-based obstacle avoidance and efficient floor cleaning.

HOME SECURITY SYSTEM

Designed a smart home security system using sensors to detect unauthorized access and trigger alerts. Enhanced residential safety through real-time monitoring and automated intrusion detection.

BLDC MOTOR SPEED CONTROL WITH EDGE AI

Developing an ESP32-based BLDC motor speed control system with real-time monitoring of speed, current, and temperature, while integrating Edge AI for energy optimization and predictive fault detection under varying operating conditions.

AREA OF INTEREST

- Digital Electronics
- Power Electronics

TECHNICAL SKILLS

- AUTOCAD
- MATLAB

SOFT SKILLS

- Team Work
- Adaptability

CERTIFICATION COURSE

- ARM Certified Embedded Application Development using ARM Processor
- AUTOCAD

LANGUAGE

- English
- Tamil
